

RUPESH SAI TEJA PITTA

Full Stack Developer | Cloud Enthusiast

rupeshsaiteja9841@gmail.com • +91 9676195493 • Rajahmundry, Andhra Pradesh • [GitHub](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 1.7 years of hands-on experience building scalable web applications using Angular, React, .NET (C#), Node JS, Python, and Azure DevOps. Proven track record delivering automation accelerators and enterprise solutions. Strong foundation in cybersecurity, REST APIs, and cloud-native architecture (Azure/Jira). Adept at collaborating cross-functionally to ship production-grade software on schedule.

TECHNICAL SKILLS

Frontend: Angular JS, React JS

Backend: Python (Django, Flask), .NET C#, REST APIs, Node.js

Cloud & DevOps: AWS (EC2, S3), Azure (Azure Functions, App Service), CI/CD Pipelines

Databases: SQL

AI Tools: Python Gen AI, Prompt Engineering, LLM Integration

Security: Network Security, Ethical Hacking, Cloud Security, OWASP Top 10

Tools & OS: Git, GitHub, VS Code, Postman, Linux, Windows, Jira

PROFESSIONAL EXPERIENCE

Software Development Engineer I (SDE-2) | [ValueMomentum Software Services Pvt. Ltd.](#) | Dec 2024 – Present

- Worked in Company's own Product called QuailX Platform under Enterprise Asset Development Team.
- Engineered automation accelerators using React JS, Node JS, and Python Gen AI, reducing manual workflows by 40%.
- Built and maintained RESTful APIs in Django Framework, integrating AI-powered features for enterprise insurance workflows.
- Deployed scalable backend services on Azure DevOps, achieving 99.9% uptime for production workloads.
- Collaborated with QA and product teams in Agile sprints, delivering features 15% ahead of schedule on average.
- Contributed to CI/CD pipeline setup using GitHub Actions, accelerating deployment cycles for microservices.
- Applied OWASP security best practices across the codebase, eliminating critical vulnerabilities in code reviews.

Salesforce Developer Intern | [Salesforce](#) | May 2023 – Jul 2023

- Developed and customized CRM applications using Apex triggers, Visualforce pages, and Lightning Web Components (LWC).
- Integrated third-party REST APIs with Salesforce, improving data synchronization speed by 30%.
- Collaborated with cross-functional teams to gather requirements and translate them into scalable Salesforce solutions.
- Wrote unit tests in Apex achieving 85%+ code coverage, ensuring platform deployment readiness.

PROJECTS

AI-Enabled Automation Accelerator Platform (QuailX) | [ValueMomentum \(Production\)](#) | 2024–Present

- Engineered a full-stack accelerator platform using React JS (frontend), Node JS (Middleware), Python Django REST (backend).
- Integrated Python Gen AI modules for document intelligence and workflow automation, cutting processing time by 60%.
- Managed cloud infrastructure on Azure DevOps, including CI/CD Pipelines and Deployments.

Responsive Developer Portfolio | [Personal Project](#) | 2023

- Built a mobile-first portfolio using React JS with optimized Lighthouse score (Performance: 95+, Accessibility: 90+).
- Deployed on GitHub Pages with automated GitHub Actions pipeline; live at <https://rupesh1021.github.io/portfolio/>.

Salesforce CRM Customization | [Salesforce Internship](#) | 2023

- Designed end-to-end Salesforce solution with Apex classes, LWC components, and third-party API integrations.
- Implemented role-based access and custom workflows, improving team productivity by 25%.

EDUCATION

B.Tech in CSE – Cyber Security | [GIET \(A\), Rajanagaram \(JNTUK\)](#) | Jan 2021 – Apr 2024

- Relevant Coursework: Network Security, Ethical Hacking, Cloud Security, Web Development, Database Systems.
- CGPA: Strong academic performance with focus on applied cybersecurity and software engineering projects.

Intermediate (MPC) – Tirumala Junior Kalasala, Rajahmundry | **CGPA: 9.8/10**

CERTIFICATIONS & TRAINING

- Salesforce Certified Developer – Salesforce Trailhead (2023)
- AWS Cloud Practitioner Essentials – AWS Training (2024)
- Python for Data Science & AI – Coursera / IBM (2024)

KEY ACHIEVEMENTS

- Reduced enterprise workflow processing time by 60% through Python Gen AI at ValueMomentum.
- Awarded with Mark of Excellence within 1 year of Joining.
- Assigned as Owner of 3 Accelerators in Project by handling 16 Clients and Leading Coimbatore Team.
- Assigned as POC and Prime Lead for Offshore AI Team.
- Delivered production-grade SDE-1 features 15% ahead of sprint timelines across 6+ release cycles.
